

The spider is a fat 8.

Strong's Numbers:

H8079

H8080

H8083

Lucifer, H1966 from H1984

Note: Shining One, also the name of the 8th star in Orion.

SHINY

The spider that is fat, and shiny, is the black widow spider.

Lucifer is connecting to 88, here used for 'shiny'.

Venus has 8 year cycles, making 88.

As I was looking from H8079 – H8087, I seen the spider associated with 8 and the word shema, from the root of H8088. YHWH has spoken to us.
